The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

Abdomen: See also Gastrointestinal Tract; Peritoneum; etc.

botryomycosis; report of 2 cases of intra-abdominal granuloma, *313
disturbances of blood and lymph circulation in, 934

Abnormalities and Deformities: See under names of organs and regions, as Aortic Valve; Heart, abnormalities; etc.

Abscess: See under names of organs and regions, as Lungs; etc.

Acacia, blood plasma proteins and liver injury, 1089

Acid, Ascorbic: See Vitamins, C
base-protein-acid compounds prepared from fibrin, *811

Cevitamic: See Vitamins, C
fatty; observations on lesions produced in arteries of dogs by injection of lipids; lipids injected: human fat, fatty acids, soaps and cholesterol, *1011

Acromegaly, normal, acromegalic and hyperplastic nephritic human nephron; further consideration of plastic reconstructions of Louis A. Turley, *691

Adenocarcinoma of jejunum treated by enterostomy and complicated by intussusception, 630

of large intestine in presumably dizygotic twin brothers, *133
primary, of jejunum with perforation, 395

Adenoma, basophil adenoma of pars intermedia of hypophysis, 942

bilateral tubular testicular adenoma associated with intersexuality, 190
chronic hypoglycemia; report of 2 cases with islet adenoma and changes in hypophysis, *994

uterine, in rabbit, 387

Adenosarcoma, role of neural crests in embryonal adenosarcomas of kidney, 384

Adrenals, accessory adrenal cortical tissue, *955

histochemistry of adrenal medulla, 1091
organ hypertrophy in thyroid-fed rats, 1085
ponceau-fuchsin stain for androgenic adrenal cortical cells, *1030

Atdes: See Encephalomyelitis, equine

Age, epithelial changes in female breast in relation to age and cancer, 640

phagocytosis of trypan blue in rats of different age groups, *212

Agglutination, aggregation of antibody-antigen compounds, 1095

autoagglutination, 187

dark ground studies of flagellar and somatic agglutination of *R. typhosus*, 1093

distribution of blood group factors in tissues, 788

elimination of R agglutinin in saliva, 941

elimination of blood group substances, 187

Hemagglutination: See also Blood, groups

hemagglutination in owls (*Strigidae*), 187

tests in study of tumor immunity, natural and acquired, 189

Agglutinins: See also Antigens and Antibodies; Bacteria, abortus and mellitense group; Blood, groups; Immunity; Undulant Fever; etc.

heterogenetic hemagglutinins in man following therapeutic injections of immune serum from rabbits, 1095

purified hemagglutinins, 187

Agglutinogens: See Blood, groups

Air Passages: See Respiratory Tract

Alcoholism: See also Liver, cirrhosis

chemical test of breath for intoxication, 1100

diagnosis and medicolegal implications of alcoholic intoxication, 944

progressive alcoholic cirrhosis; clinical and pathologic study of 68 cases, *672

Alimentary Tract: See Digestive Tract

Allen, A. C.: Mechanism of localization of vegetations of bacterial endocarditis, *399

Nature of vegetations of bacterial endocarditis, *661

Allergy: See Anaphylaxis and Allergy

Amebiasis, incidence of amebiasis, typhoid and dysentery in Chicago hospital, 193

Amniotic Fluid, aspiration of amniotic liquor, 944

Amyloid Substance, genesis of corpora amyloidea of central nervous system, 783

Amyloidosis, primary systemic amyloidosis; involvement of cardiac valves, joints and bones, with pathologic fracture of femur, *267

solitary amyloid tumor of parietal bone, 389

Anaphylaxis and Allergy: See also under Tuberculosis; etc.

allergic hyperergic inflammation evoked by autoserum, 935

experimental allergic hyperergic arteritis, 625

experimental hypersensitiveness in rhesus monkey, 1095

fibrinoid degeneration of connective tissue following single injection of protein, 372

heterogenetic hemagglutinins in man following therapeutic injections of immune serum from rabbits, 1095

influence of nervous system on hyperergic inflammation, 176

narcosis and hyperergic inflammation, 369

relation of vegetative and peripheral nervous system to hyperergic inflammation, 177

sensitization, antibody formation and lesions produced by tubercle bacilli in albino rat, *289

Shwartzman phenomenon, 942

Anastomosis: See under Arteries

Anderson, W. A. D.: Hyperparathyroidism and renal disease, *753

Anemia, aplastic, with reference to significance of small lymphocytes, *1

effect of x-radiation on blood and lymphoid tissue of tumor-bearing animals, 387

functional hyperplasia of parathyroids, 1085

infectious, of horses, 1093

Anesthesia, narcosis and hyperergic inflammation, 369

Aneurysm, cerebral: relation of anomalies of circle of Willis to aneurysm of base of brain, 936

Anthraxosis: See Pneumoconiosis

Anthrax, use of immune serum in treatment in Bulgaria, 635

INDEX TO VOLUME 27

- Antibodies:** See Antigens and Antibodies
- Antigens and Antibodies:** See also Agglutinins; Immunity; Lipoids; and under specific antigens and reactions, as Bacteria, abortus and mellitense group; Diphtheria; Pneumococci; Typhoid; etc.
- antigenic structure of spermatozoa, 1094
- distribution of blood group factors in tissues, 788
- histology of cutaneous reaction to *Brucella mellitensis* antigen, *307
- in vitro and in vivo action of chronic inflammatory tissue on certain antigens and antibodies, 802
- Increase of antigenic property of serum by ultraviolet irradiation, 634
- reactions of anti-azoproteins serum, 379
- sensitization, antibody formation and lesions produced by tubercle bacilli in albino rat, *289
- Antiserum:** See under Tuberculosis; etc.
- Antitoxin:** See under Tetanus; etc.
- Anuria:** See Urine, retention
- Aorta, coarctation of adult type, associated with cystic degeneration of media in first portion of arch, *742**
- medial degeneration in nonruptured aorta appearing syphilitic macroscopically, *320
- Aortic Valve, calcified nodular deformity of, 177**
- Apoplexy:** See Brain, hemorrhage
- Apparatus, improved air driven type of ultracentrifuge for molecular sedimentation, 379**
- inexpensive embedding oven for use in routine work on tissues, *580
- Appendicitis:** See also Appendix
- chronic, changes in musculature of appendix in, *546
- Appendix, appendicitis; changes in musculature of appendix in chronic appendicitis, *546**
- diverticula of vermiform appendix associated with overgrowth of nerve tissue and partial mucocele, *735
- results from study of cells of appendix of rabbit, *864
- results from study of cells of human appendix, *870
- Argentaffin Cells:** See under Intestines
- Ariel, I. M.: Argentaffin (carcinoid) tumors of small intestine; report of 11 cases and review of literature, *25**
- Arms:** See also Forearm
- glomus tumor of, 946
- Aronstein, C. G.: Ball thrombus of heart; report of case with review of literature, *907**
- Arsenic and Arsenic Compounds, pathologic changes in rats and in dogs fed diets containing lead and arsenic compounds; compounds used: lead arsenate, arsenic trioxide, calcium arsenate and lead acetate, *433**
- Arteries:** See also Aneurysm; Aorta; Arteriosclerosis; Blood pressure; Blood vessels; Embolism; Periarthritis; Thrombosis; etc.
- Inflammation; experimental allergic hyperergic arteritis, 625
- Injection plus dissection study of coronary artery occlusions and anastomoses, 177
- pulmonary; pulmonary schistosomiasis, 786
- Arteriosclerosis, effect of thyroid feeding on removal of cholesterol, *888**
- observations on lesions produced in arteries of dogs by injection of lipids; lipids injected: human fat, fatty acids, soaps and cholesterol, *1011
- sclerosis of arterioles of spleen and kidney in relation to arterial hypertension, 1088
- Arteritis:** See Arteries, inflammation
- Asbestosis:** See Pneumoconiosis
- Aschoff Body:** See Rheumatic Fever
- Astrocytoma, clinicopathologic study of, 637**
- so-called, of cerebellum, 640
- Atherosclerosis:** See Arteriosclerosis
- Atrophy:** See under names of organs and regions
- Autopsies, tuberculous infection from talcum used to dry gloves used for necropsies, 939**
- Avitaminosis:** See under Vitamins
- Azoprotein:** See under Protein
- B C G:** See under Tuberculosis
- Bacilli:** See Bacteria
- Bacteria:** See also under Meningococci; Pneumococci; Streptococci; Tubercle Bacilli; Typhoid; Viruses; etc.
- Abortus and Mellitense Group:** See also Undulant Fever
- abortus and mellitense group; *Brucella prepitina* systems, 940
- abortus and mellitense group; histology of cutaneous reaction to *Brucella mellitensis* antigen, *307
- Bordet-Gengou's:** See Whooping Cough
- Clostridium:** See also Botulism
- clostridium; toxin production by *Bacillus histolyticus*, 941
- coccobacilli; coryza of domestic fowl, 632
- Corynebacteria:** See under Diphtheria; etc.
- Diphtheria: See under Diphtheria
- Döderlein's: See under Vagina
- Dysentery:** See Dysentery
- Fusiforms:** See Spirochetosis
- Hemophilus:** See also Whooping Cough
- hemophilus; coryza of domestic fowl, 632
- Influenza:** See Influenza
- Paratyphosis:** See *Salmonella paratyphosis*
- Fertussis:** See Whooping Cough
- proteus, growth of, 1093
- Shiga's:** See Dysentery
- Typhoid Group:** See under Typhoid
- Bactericides:** See Germicides
- Bacteriophage, concentration and purification of, 185**
- type-specific bacteriophages for *Corynebacterium diphtheriae*, 632
- Bacterium:** See Bacteria

 groups; isoagglutinin anti-M, 382
 groups; nature of O property, 1095
 groups; preparation of M and N testing fluids, 391
 groups; production of anti-N immune serums in rats, 788
 groups; recognition of subgroup A₂ as means of avoiding blood transfusion reactions, 802
 groups; serologic differentiation of homozygotes and heterozygotes in groups A and B, 788
 pressure, high; experimental hypertension, 175
 pressure, high; hypertension in patient with solitary ischemic kidney, 180
 pressure, high; hypertonic apopleptic cerebral hemorrhage, 372
 pressure, high; sclerosis of arterioles of spleen and kidney in relation to arterial hypertension, 1088
 proteins and liver injury, 1089
 proteins; immunologic behavior of serum globulin, 788
 relation of colloidal structure to action of complement and to paroxysmal hemoglobinuria, 381
 sugar; chronic hypoglycemia; report of 2 cases with islet adenoma and changes in hypophysis, *994
 transfusion; recognition of subgroup A₂ as means of avoiding blood transfusion reactions, 802
 transfusion; reduction of intracranial pressure by concentrated solutions of human lyophilic serum, 175
 transfusion, renal insufficiency from, 367
 transfusion syphilis, 192
 Vessels: See also Arteries; Periarthritis; Veins; etc.
 vessels; spontaneous cardiovascular disease in rat, 179
 vessels; vascular changes in various types of pulmonary tuberculosis, 1088
 Vitamins: See Vitamins
Blumenthal, H. T.: Effects of organismal differentials on distribution of leukocytes in circulating blood, *510
Body Fluids: See Fluids
Bones: See also under names of bones
 and cartilage lesions of protracted moderate scurvy, 370
 bone metastases of transplantable tumors, 190
 composition in chronic fluoride poisoning, 628
 Diseases: See Osteomyelitis; etc.

Bones—Continued

fibrosarcoma of soft tissue with regional concentric absorption of bone not due to tumor, 949
 giant cell tumor of bone, 638
 inguinal granuloma with visceral and osseous lesions, 393
 marrow; formation of Russell bodies in plasmacytic multiple myeloma, 793
 marrow; growth of human bone marrow in tissue culture, 625
 marrow; peripheral blood phenomena and differential response of bone marrow and lymph nodes to hyperpyrexia, 368
 osseous changes in man following prolonged ingestion of fluorides; report of case, 642
 osseous findings in chronic renal insufficiency in adults, 798
 primary systemic amyloidosis; involvement of cardiac valves, joints and bones, with pathologic fracture of femur, *267
 spontaneous tumors of mice, 385
